PROFESSIONAL SUMMARY

Full-Stack Developer with over 3 years of hands-on experience architecting scalable web and mobile applications, using **Laravel, React & React Native**. Proven track record in designing secure RESTful APIs, implementing RBAC authentication systems, Integrating AI functionality, Building CMS Platforms and much more. Adept at database optimization and cross-functional team collaboration to deliver clean, maintainable code.

TECHNICAL SKILLS

- **Languages:** PHP, Javascript (ES6+), Typescript.
- **Frameworks/ Libraries:** Laravel, Node.js, Express.js, React, Vue.js, Vite, React Native, Redux, Axios, Socket.io.
- **Database Management:** MySQL, MariaDB, Firebase, MongoDB.
- **Architecture & Design:** System Design, Database Architecture, MVC Architecture, Object-Oriented Programming (OOP).
- **APIs & Integration:** REST APIs, API Integration, AI Integration, Stripe, Authentication & Authorization (RBAC, JWT)
- **Tools & Version Control:** Git, GitHub, Postman, Mailtrap/ Mailpit, L5 Swagger, Npm, Composer.
- **Developer Practices:** Debugging, Database Indexing, Server-side Data Fetching, Scalable Code Architecture.
- **Soft Skills:** Cross-Functional Collaboration, Problem Solving, Adaptability.

PROFESSIONAL EXPERIENCE

PHP Laravel Developer

Olive Digital Pvt Ltd | June 2025 – Present

- **Backend & API Architecture:** Architected scalable Laravel backends and RESTful APIs, using **Yajra DataTables** for server-side processing to optimize query response times by **40%** on high-traffic applications.
- **AI Integration & Security:** Integrated **AI chatbots** for customer support automation and engineered granular **Role-Based Access Control (RBAC)** secured via JWT/OAuth2, password hashing, and encryption.
- **Background Tasks & Email Workflows:** Configured **Laravel Cron Jobs**, queues, and observers for automated email campaigns using **Mailtrap/Mailpit**, alongside activity logging across 100% of sensitive transactions.

- **Interactive UI & Financial Systems:** Built responsive interfaces with **jQuery, AJAX, Select2, and Bootstrap**, and integrated **DOMPdf** for dynamic invoice and report generation.
- **Debugging & Performance Optimization:** Conducted full-stack debugging, database indexing, and query refactoring, resolving critical production bugs and reducing system downtime by **25%**.

ReactJS Developer

WAAPS.com | October 2023 – April 2025

- **Frontend Architecture & Component Refactoring:** Engineered scalable, responsive UIs using **React, Redux, and modern JavaScript (ES6+)**, refactoring legacy monolithic code into reusable component libraries that reduced overall development time by **25%**.
- **API Integration & Performance:** Integrated complex RESTful APIs for seamless asynchronous data exchange, optimizing state management and rendering cycles to reduce page load speeds by **30%**.
- **Cross-Functional Collaboration:** Partnered directly with backend teams to architect, contract, and align API payloads, streamlining frontend-backend data flows and reducing API integration errors by **20%**.
- **State Management & UI Optimization:** Implemented robust global state management and custom React hooks, enhancing code maintainability and delivering cross-browser compatibility across all web applications.

PROJECTS

Adult Foster Care Manager | **Laravel, MySQL, Socket.io**

- **Role-Based Care Management:** Engineered dynamic CRUDs and granular access controls for Nurses, Caregivers, and Admins, streamlining multi-tier patient care workflows by **40%**.
- **Real-Time Healthcare Chat:** Implemented a **Socket.io** messaging system for instant, role-restricted communication between staff and caregivers, reducing operational response times by **30%**.
- **Automated Invoicing & Financials:** Integrated **DOMPdf** to automatically generate medical invoices, dynamic care reports, and patient receipts with zero manual billing errors.
- **High-Volume Data & Audit Logging:** Utilized **Yajra DataTables** for server-side processing to reduce patient record loading times by **45%**, with Laravel Observers logging 100% of sensitive activity for HIPAA/compliance audits.

Modular CMS & SaaS Architecture | **Laravel, MySQL, Socket.io, AI Integration**

- **Modular Architecture:** Built a package-based CMS with decoupled modules (E-commerce, AI Chatbot, Email Marketing), cutting new deployment setup time by **60%**.
- **Dynamic Config Engine:** Created an in-dashboard settings system to configure dynamic `.env` credentials (Stripe, PayPal, Mailtrap, Mailgun) without code changes.
- **AI Features & Automation:** Integrated AI APIs for smart product recommendations ("Frequently Bought Together"), automated inventory re-fill alerts, and customer chatbots.
- **Real-Time Engine & Marketing:** Implemented **Socket.io** for multi-role live chat and automated email campaigns, boosting user engagement by **35%**.

- **Performance & Audit Security:** Used **Yajra DataTables** for server-side processing to reduce database load by **40%**, alongside Laravel Observers for full user activity logging.

Wellnest – Doctor Consultation Platform | *React, Firebase, Node.js, Tailwind CSS*

- **Doctor Onboarding & Specialization Filtering:** Built dynamic doctor registration workflows with custom multi-step forms and specialization filters, cutting user search-to-booking time by **35%**.
- **Real-Time Booking & Firebase Auth:** Integrated Firebase Realtime Database for instant appointment scheduling and secure OAuth/JWT authentication for patients and physicians. Built physician registration workflow with protected login system.
- **Reusable Component Architecture:** Engineered modular, reusable React components with optimized rendering cycles, accelerating frontend feature development by **30%**.
- **Interactive Engagement & Performance:** Developed dynamic Medical Q&A and Health Blog modules while optimizing code-splitting and asset loading for **40% faster initial page loads**.

EDUCATION

Bachelors in Computer Science | 2026-Present

Virtual University

Intermediate in Pre-Engineering | 2020-2022

Islamia Science College, Karachi
